

## Protect your delicate laundry with Charlie's Soap.

Everyone has something in their wardrobe that requires washing in a “mild detergent”. It could be a down jacket or expensive lacy lingerie. The problem is you needed one detergent for delicates and another for your regular laundry. What sense does that make? It means that one detergent doesn't clean and the other one tears up your laundry. That's not much of a choice. There is a simple solution. Charlie's Soap for Laundry can fully clean your delicate clothes with ease. And when you're done with them in the machine's gentle cycle, you can use Charlie's Soap to clean the rest of your laundry in the regular cycle. You don't have to switch detergents any more. Charlie's Soap gets it done. Charlie's Soap is:

- GREEN:** 97% biodegradable in just a month. (Japan Food Research Labs) .  
Your family will be safe because of our Non-Toxic formula.  
Our products are safe for septic systems.
- CLEAN:** Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)  
Targets the stains and the odors, not the fabric.  
Use on any washable fabric: cotton, polyester, silk, lycra, etc...  
Rinses away leaving nothing that can touch your sensitive skin.  
(Clemson University School of Textiles)  
No perfumes, fabric softeners, nothing – just clean, undamaged clothes.
- GUARANTEED.** We believe in only making products that work well.  
Use as directed and your skin will love you for it

### Washing Delicates with Charlie's Soap:

- The machine should be cleaned of all residues of other detergents before washing your clothes in Charlie's Soap. Put 2 TBSP of the Powder or 2 Fl. Oz. of the Liquid into the machine and some old rags and run a full cycle with a double rinse.
- Follow care instructions on your garment with regard to water temperature, agitation, and drying.
- When in doubt, use the full amount of Charlie's Soap for a load: 1 Fl. Oz. for the Liquid or 1 TBSP for the Powder. Charlie's Soap will rinse completely so there is no need to worry about residue.
- Charlie's Soap needs the full amount to be effective on diapers.
- For a small load using less water, use no less than ½ dose. Call for info if you have hard water.
- Clothes that have been washed in anything other than Charlie's Soap likely have detergent residues. These residues were designed to stick, and it may take several washes in Charlie's Soap to remove those residues. The more you wash with Charlie's Soap, the cleaner your garments become..
