

Charlie's Soap is safe for all your laundry!

If you wear clothes, then you can use Charlie's Soap. If you don't, then I don't think we want to know about it. Not everyone has high-performance polypropylene or Gore-Tex or diapers that they have to wash. But almost everyone out there at least has a pair of socks that they wash in a washing machine. Walking down the detergent aisle, you get inundated with choices of fragrance and color, but they're all practically the same, ineffective detergent.

Charlie's Soap doesn't rely on fancy smells or colors of the bottle. None of that means anything. Charlie's Soap just cleans. It takes the dirt, the sweat, the blood, the odor and just washes away. And it does it effectively for all your washable laundry, not just the fancy stuff. Socks, jeans, boxers, you name it. Charlie's Soap can clean it.

GREEN.

97% biodegradable in just a month (Japan Food Research Labs)
Your family will be safe because of our Non-Toxic formula.
Our products are safe for septic systems.
Charlie's Soap is Non-Toxic.

CLEAN.

Nothing cleans as thoroughly as Charlie's Soap. (SGS Testing Labs)
Use on any washable fabric: cotton, polyester, neoprene, washable wool, etc...
It rinses away completely leaving nothing at all to prematurely wear down your clothes. (Clemson University School of Textiles)

GUARANTEED.

We believe in only making products that work well.
Use as directed and you and your family will be clean and happy.

NEW USERS: PLEASE READ THE FOLLOWING INSTRUCTIONS CAREFULLY

1. Please follow all care instructions on your garments. Charlie's Soap is safe for all fabrics that can be safely washed with detergent and water.
2. Pre-treat stains as necessary with Charlie's Soap Laundry Pre-Spray.
3. Run a large/heavy empty load with two (2) doses of Charlie's Soap Laundry Liquid or Laundry Powder and a few old rags to clear your washing machine of any residue left by other detergents.
4. **Your garments may require several washings before you notice the lasting benefits of using Charlie's Soap** for Laundry – low suds, softer clothes, clean scent, etc. For a good demo, wash the same load (e.g., bath towels) three (3) consecutive times. This simulates a month's worth of doing laundry removing most residues.
5. If you have any questions, please call or email us at info@charliesoap.com.
