

## Laundry Pre-Spray

Let's face it: No shirt is safe from a ketchup bottle with an attitude. No pants can run away from the little boy who wants to slide into home. And let's not even think about what babies like to do to their own clothes and the shoulders of those around them. When you need a little kick to get these nasty stains out, choose Charlie's Soap Laundry Pre-Spray. It's strong enough to power through just about any stain, yet it's gentle enough to use on any fabric. And the best part is you don't have to hold your nose or harm the planet in the process.

- Works great on grease, grass, blood, tar, mustard, mildew stain, pine sap, poop and much more.
- Charlie's Soap will not damage any fabric.
- Non-toxic, biodegradable and hypoallergenic

### How to use Charlie's Soap Laundry Pre-Spray:

- Apply Charlie's Soap Laundry Pre-Spray directly to fabric as soon as you notice the stain or as soon as you can pre-treat.
- Rub the Pre-Spray into the stain.
- Allow the Pre-Spray to sit on the stain and penetrate into the fibers -at least 30 minutes. Charlie's Soap was made to gently remove stains, not blast them off. Charlie's Soap will NOT damage your clothes if it is allowed to dry, so you can spray it and leave it until laundry day if you have to.
- Charlie's Soap will separate the stain from the clothes, causing the stain to spread. This is good. It means the stain will come out in the wash.
- Before washing with Charlie's Soap for Laundry, re-wet the stain with Pre-Spray. Wash as normal with Charlie's Soap for Laundry. Repeat if necessary.
