

## Charlie's Soap Pre-Spray

Let's face it: No shirt is safe from a ketchup bottle with an attitude. No pants can run away from the little boy who wants to slide into home. And try not to even think about what babies like to do to their own clothes and the shoulders of those around them. Everybody has to spot treat stains on their clothes. But how to choose the right product? Do you want a treatment that's harsh, possibly damaging to the fabric? Or do you want one that's green and might not really get remnants of the meatball out of your lap? You don't have to choose. Charlie's Soap Laundry Pre-Spray gets it out. A little squirt is all you need. Stains go away, fabrics stay intact, and you don't have to hold your nose or harm the planet in the process.

- Works great on: grease, grass, blood, tar, mustard, mildew stain, pine sap, poop, and much more.
- Charlie's Soap will not damage any fabric. Test for color fastness and follow care instructions.
- Available in a handy Pocket Charlie's size while you're on-the-go.
- Also available in a 16 oz sprayer.
- Charlie's Soap Laundry Liquid is a truly revolutionary approach to cleaning your home laundry. Why try to cover up dirt and odors when you can clean them away? Clean clothes feel better, smell fresher, and last longer. That's why we say Charlie's Soap is:

**Green. Clean. Guaranteed.**

### How to use Charlie's Soap Laundry Pre-Spray:

- Apply Charlie's Soap Laundry Pre-Spray directly to fabric as soon as you notice the stain or as soon as you can pre-treat.
- Rub the Pre-Spray into the stain.
- Allow the Pre-Spray to sit on the stain and penetrate into the fibers - at least 30 minutes. Charlie's Soap was made to gently remove stains, not blast them off. Charlie's Soap will NOT damage your clothes if it is allowed to dry
- Charlie's Soap will separate the stain from the clothes causing the stain to spread. This is good. It means the stain will come out in the wash.
- Before washing with Charlie's Soap for Laundry, re-wet the stain with Pre-Spray. Wash as normal. Repeat if necessary.
