

Charlie's Soap® is environmentally friendly to all land, air and marine life, when used as directed, because it contains only the purest most biodegradable, natural ingredients.

Charlie's Soap contains only pure washing soda, sodium silicates and a blend of coconut oil surfactants. It contains no lye, phosphates, bleach, brighteners, dyes, softeners, petroleum, fillers or perfumes.

Charlie's Soap is skin friendly because it cleans all the way to the fiber and leaves no residue on clothes to irritate delicate skin. It leaves nothing but the good old fashioned sweet smell of clean.

Charlie's Soap restores the natural softness to cotton, microfibers and silk. It is fabric friendly because it leaves no residue to stiffen fabrics. Softeners aren't needed because nothing is softer than really clean clothes. Bright colors stay bright. Dark colors stay dark. Elastic stays elastic.

## Charlie's Soap® Mission Statement and Code of Ethics

We are dedicated to the development, manufacture and worldwide distribution of the highest quality biodegradable, environmentally safe and hypo-allergenic detergents. Our commitment to continued scientific research ensures that we provide excellent products that protect the environment and the users of Charlie's Soap. We feel adherence to *real science* is essential in the production of environmentally friendly products and we are committed to solicit the participation of University and private sector testing to attest to the features and benefits of our products. We fully guarantee all Charlie's Soap products and are committed to truthfulness, fairness, goodwill and the mutual benefit to ourselves, our business partners and our customers.

# Research Shows Charlie's Soap® Really Performs

For additional information visit us at [www.charliesoap.com](http://www.charliesoap.com)

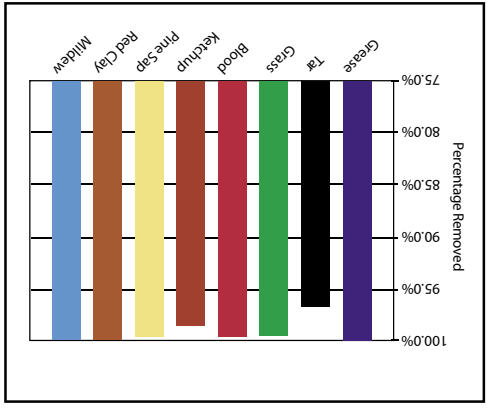

## Independent Outdoor Fabric Testing Laboratory

**Liquid Laundry**  
 maintains and restores waterproof characteristics of high tech fabrics such as Goretex - even after repeated washings

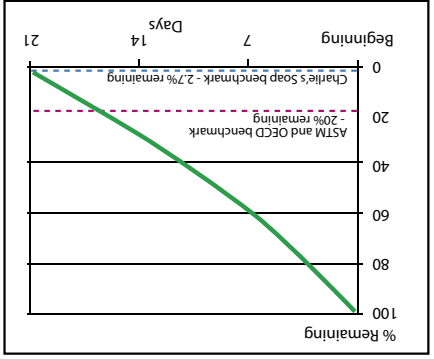

## SGS US Testing Labs, Life Science Services

**Soil and Stain Removal**  
 Stains set in for 30 minutes  
 Fabric pre-treated with CS All Purpose  
 Washed in one tablespoon CS Laundry Power

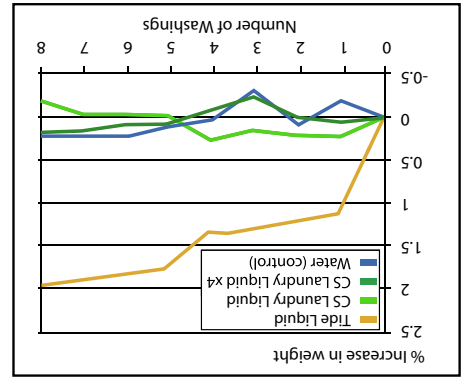

**Biodegradability**  
 Japan Food Research Laboratories, Tokyo  
 Charlie's Soap biodegraded over 97% in soil in 28 days.  
 Certified safe for use in small streams and lakes

## Clemson University School of Textile Science

**Hypoallergenic Properties**  
 Performed on 3 sets of 100% cotton diapers.  
 thoroughly rinses with no irritating residues remaining on fabric.  
 rinses as well as plain water  
 hypo-allergenic - there is nothing left on the fabric to trigger allergies.

## All Purpose Cleaner

Multi Surface cleaning agent  
 Effective when both cleaning and personal safety are important

## Laundry Liquid

Originally developed for use in textile quality control labs  
 Works on all fabrics including, cotton, silk, wool and synthetics

## Laundry Powder/Lingerie Powder

Concentrated version of Liquid Laundry  
 Biodegradable, additive free  
 100% cold water soluble safe washing powder

Charlie's Soap...a revolutionary approach to cleaning and laundry care and a wise choice for the environment.
